

## Skim Arch Beads: CB2A

Locally manufactured from recycled plastic, Renderplas 2mm PVC arch corner beads / angle beads are designed for external and internal arches to provide protection from impact and speed up application for a smooth regular curve on the outer edge

### Performance: design data

<b>Affiliations</b>	The National Insulation Association NBS Plus	<b>Fire</b>	Class 1Y. Combustible within fire source, self extinguishing upon removal of flame, will not contribute to the combustion of the system
<b>Applications</b>	To form smooth curves and to prevent cracking for all internal wall cladding, partitions and suspended ceilings that feature curves formed from plasterboard; arches with external render	<b>Health and Safety</b>	PVC beads are safe to handle removing the dangers of cut metal; suitable for prisons and schools
<b>Chemical</b>	Zero chemical reaction with water, sand and cement, acrylic render, water based paint; avoid organic solvents, chlorate bleach, strong acids and alkalis	<b>Heat</b>	Ideal for all habitable conditions
<b>Durability</b>	Impact resistant; dissipates shock waves; outlasts metal; cleaned or painted in same way as plaster or render	<b>Guarantees</b>	Fit for purpose for at least 25 years
<b>Economics</b>	PVC beads are faster to cut and fix than steel and are guaranteed not to stain or corrode in damp situations. They reduce casual damage on site and impact damage when fitted	<b>Mechanics</b>	Will curve through a 0.5m radius
<b>Environment</b>	Locally manufactured; high recycled content; fully recyclable; low Ecopoint score of 0.004/kg delivered	<b>Pollution</b>	Ecologically benign; non-hazardous in water; non-hazardous if ingested; does not release substances into the atmosphere
		<b>Strength</b>	PVC beads offer superior resilience to impact
		<b>Weather</b>	Not affected by weather and should be specified in all regions of high moisture or high salt
